Meyer Sound Bolsters UK Sales and Support

Meyer Sound Laboratories, in recognition of the growing importance of its UK business, has appointed Roger Harpum as UK Sales Manager. Harpum brings with him years of experience with Meyer Sound in the region from his long tenure at London's Autograph Sales and will manage Meyer Sound's expanded UK dealer network.

"We are seeing increased demand for Meyer Sound products in the UK region, and no one knows more about the market for us there than Roger," says Helen Meyer, executive vice president at Meyer Sound. "His presence will help us build the kind of relationships with all of our dealers in the region that we still enjoy with Autograph after all these years."

Autograph's history of working with Meyer Sound dates back 22 years, and encompasses a lengthy list of notable theater, live sound, studio and fixed installation projects. Today, as the market in the UK for Meyer Sound products grows and changes, the company and Autograph Sales continue to develop that relationship.

"Autograph Sales has enjoyed working with Meyer Sound products over the last twenty-two years," says Autograph Sales' director, Graham Paddon. "As a dealer, we will continue to make use of our in-depth knowledge of the whole range of Meyer Sound products in order to retain our position as a leading supplier of high quality equipment and system design. At the same time this allows Meyer Sound to focus their Sales and Marketing activities more specifically on matching individual products to specific markets."

Meyer Sound is also pleased to announce the addition to their UK dealer list of Marquee Audio (Shepperton), Pro Audio Systems Ltd. (Bradford), Apex Acoustics (Dundee) and Moon Lighting (Belfast). Harpum is looking forward to developing the new relationships: "UK interest in Meyer Sound's products is growing tremendously," he says, "and I am eager to work with all of our UK dealers to meet the need, especially in the area of fixed installations."

Roger Harpum can be reached at +44 7887 777150 or by e-mail at roger@meyersound.com

ABOUT MEYER SOUND

Meyer Sound Laboratories Inc. designs and manufactures high quality sound reinforcement loudspeakers, studio monitors, equalizers and sound measurement tools for the professional audio industry. Founded in 1979 by John and Helen Meyer, the company has grown to become a leading worldwide supplier of systems

for theaters, arenas, stadiums, theme parks, convention centers and touring concert sound rental operations. Meyer Sound's main office and manufacturing facility are located in Berkeley, California, with field offices and authorized distributors located throughout the USA and around the world.
